

Perched high up on a ledge overlooking the Savuti landscape, lies the eco-friendly Ghoha Hills Savuti Lodge. Savuti is part of the Chobe National Park and is renowned for being a prime game viewing destination in Botswana. Ghoha Hills Savuti Lodge has been designed and built to blend into the natural surrounding environment and to take full advantage of the spectacular 180 degree views.

**Ghoha Hills Savuti Lodge is fully run on solar power, utilizing the available sun energy to generate enough renewable power to provide the lodge with all of its energy requirements and significantly reduce the site's environmental impact.**

Each luxury tented room sleeps two people, offers en-suite facilities and breathtaking views of the African plains (Which can even be enjoyed from the shower). The luxury tented rooms have private viewing decks which can be used to enjoy the untouched wilderness. The lodge also has 2 luxury family-size tented rooms that sleep four and are suitable for two adults and two children.

The luxury tented rooms are well appointed with no expense spared in the décor and wonderful linen ensuring a good night's rest every night.

## LOCATION:

Ghoha Hills Savuti Lodge lies on the ledges of the Ghoha Hills in the Savuti Area within the Chobe National Park approximately 150km south west of Kasane and 230km north east of Maun.

## HOW TO GET THERE:

### From Kasane:

Road transfer is approximately 3 hours with a leisurely game drive. Lodge transfers can be pre-booked at time of reservation from either Kasane Airport. There is a minimum of 2 and maximum of 4 persons per transfer.

### By Air:

Kasane Airport with small aircraft – 35 minutes in air plus 40 minutes road transfer

Maun Airport with small aircraft – 50 minutes in air plus 40 minutes road transfer

### GPS Co-ordinates:

S 18°26'11.11" E 24°13'33.28"

## GENERAL TRAVEL INFO:

### Malaria

Malaria is prevalent during the mid to late rainy season (January to May) but one should always take precautionary measures. Consult your local GP for preventative malaria prophylaxis. Use insect repellents, sleep under mosquito nets and during the day wear light long sleeved clothing.

### Weather:

The Chobe region has two very distinct seasons and experiences hot, wet summer and cool, dry winters. The rainfall period occurs November to April and daytime temperatures during this period average at 35 degrees Celsius.

During May to September the days are moderate but the mornings and evenings are cold. Humidity in the Chobe area is low.

## WHAT TO PACK:

- Summer months are hot and humid. Cool cotton clothing advised
- Comfortable walking shoes
- Sun hat, sunglasses and sunblock
- Cameras and extra SD Cards and binoculars
- Light, neutral coloured clothing
- Bathing suit
- Warm jackets essential in winter (May – Oct)
- Beanie and gloves – the mornings are cold during winter
